### Technical & General Specifications

**Stalls Seating**      The rear seats are on retractable Bleachers and will clear to the back wall thus allowing an open floor

The mid and front seats can be removed manually thus giving you clear space at the front stalls

Two rows of seats are situated on the Pit Lift which can be removed to allow for a Pit or Forestage

**Auditorium Formats**      The auditorium will convert to an open space with no Stalls level seating. The floor can be levelled out to meet the stage, thus giving you a flat floor from the back of the Stalls to the back wall of the stage. Please note that this takes time to prepare and requires notice to arrange

**Drapes**      We hold a stock of black drapes, legs & borders

4no	Legs	9m x 2.5m
3no	Border	12m x 1m
2no	Half Tabs	8m x 6m

### Scene Dock

**Storage & Workshop**      This is offstage left with room to store props furniture etc. There is a paint sink and workspace. Headroom is limited. Any flattage and tall scenery may have to be stored horizontally.

**Car Parking**      Limited Car Parking Spaces are available but only by prior request please. There is temporary parking for deliveries, loading etc next to the Stage Door.

**Health & Safety**      Visiting Companies are requested to provide a full Health & Safety assessment for their production, which should include a show risk assessment, COSHH assessment and manual handling information. A signing in/out sheet is required backstage.

LPAC provides all incoming companies with a full Health & Safety Manual with fire evacuation procedure and other related documentation.

*Available on request.*
